Subject: Re: Invitation to In-line testing R&D demo next monday in the east bay

Laura,

Thanks for the invite, but I won't be able to attend because I'll be at the NARUC meeting. I think that goes for General Hagan as well.

Thanks,

Liza

Subject: Invitation to In-line testing R&D demo next monday in the east bay

Good morning –

Next Monday morning PG&E and equipment developers will be conducting a demo test of the “Explorer 30-36 inch pig” in Fremont. It’s in the testing phase of R&D, and could be a great breakthrough in allowing pigging of existing gas lines with changing diameters. This one covers 30-36 inches in diameter, and would be a first in the industry.

If any of you were interested and available to come over for the test at 8:00 am, we’d be happy to have you there. I’d need to know by this Wednesday so we could provide directions and security access.

Thanks

Laura
