Subject: Fwd: Rate reform - final draft on issues other than fixed charges

Matt: in your next set of emails, please be sure to include Trina and dexter.

I think they dropped off the distribution on some round, and should get added back in the mix.

Thanks.

MC

Kent,

Any changes will have to be vetted by the entire group. They will not simply be included in the document. If they go beyond the CARE categorical enrollment issue, we're unlikely to get to an agreement today.

Matt – the bill is technically out of the Sen Energy Cmte and any additional amendments would be author's amendments and not Committee ones. I spoke with Kellie Smith this morning and heard this. Kellie is being very helpful in moving this along but I would suggest that any changes that are sent to Kellie also include Celia Mata in Assm Perea's office.

Also want to make sure you know we are working on some changes following the discussion this morning and would want those included in whatever you send to Kellie later today.

Russ,

I believe that Kellie would send the document to Legislative Counsel. They will turn these items into legislative language. We would then have a chance to review and ensure that the language is consistent with our agreement.

I'll plan to send the document to Kellie by COB today unless I hear otherwise from the IOUs.

The document Matt attached below comports with where I believe our conversation ended up this morning. I do have logistical questions -

Is this document sufficient for Kellie Smith to work from? I've been under the impression that she needs these items crafted up as amendments? Who would have the ball on that?

Please advise.

Subject: Rate reform - final draft on issues other than fixed charges

Rate reform group participants,

I'm attaching the (hopefully) final draft on all issues apart from fixed charges. It is my understanding that we have essentially reached agreement on these points.

Please let me know if there are any objections. If not, I will send this draft (in clean form) to Kellie Smith at the Senate Energy, Utilities and Communications Committee and tell her that the consumer/IOU group has reached agreement on these elements. In addition, DRA will circulate the provisions of Section 745 that should be restored.

If anyone needs to talk today, please call my mobile phone (415-412-7886).

Many thanks.
