B/c of the strong signal from them, we are not planning on filing for the next cycle, but our DR group is uncomfortable in case they change their minds or otherwise the timing gets balled up (the DR case has been known to fall through cracks recently, I have to admit). So we plan to file a letter to Clanon asking for an extension to file. I doubt the bridge year is the right thing for maintaining DR, let alone growing it, but I don't think it's possible to win that once the assigned office says we're not going to go for a full cycle.
