Subject: RE: following up on the business model of hte future

Hi there, just following up on this meeting. I've got you in the calendar for Tuesday at 9-11 here at the CPUC. Are we confirmed? Thanks!

Hi Kristin,

Would either next Tuesday or Wednesday at 9 am work? Deb will need to call in from East Coast. Brooke and I will attend in person.

Thanks,
Meredith

Hi Meredith, we need to get our next meeting in the calendar, so I'm hoping you can send us some suggested dates at your earliest convenience. We just had a good meeting with SDG&E who provided updated versions of their charts on the historical context of the industry from the past ten years through the 2030 timeframe, with regard to the roles the customers, regulatory agencies and utilities have played. We're hoping that you'll also have something along those lines to share with us. I understand SDG&E shared their outlines with you.

In addition, I and the SDG&E folks have been looking at recent commission decisions that point to specific business model choices. I am also hoping that your group would be able to share similar information with us on recent decisions affecting your company.

We'd like to meet as soon as possible to keep this process moving as fast as possible. Thanks, Kristin.
