Attorneys for
PACIFIC GAS AND ELECTRIC COMPANY

Dated: July 10, 2013

Pursuant to Commissioner Florio’s January 22, 2013 “Assigned Commissioner’s Ruling and Scoping Memo” (ACR), Pacific Gas and Electric Company (PG&E) submits this Case Management Statement in order to facilitate an orderly scheduling of witnesses in the above-captioned matter.

The ACR directs this Case Management Statement^{1/} to address:

- The status of any ongoing settlement discussions.^{2/}
- The order of witnesses for evidentiary hearings.^{3/}
- Cross-examination times estimated by each of the parties and for each of the witnesses they wish to question.^{4/}
- A list of witnesses for whom no cross-examination is estimated.^{5/}
- Any other matters that the parties deem relevant.^{6/}

I. SETTLEMENT DISCUSSIONS.

A. Center for Accessible Technology

Concurrent with the submission of PG&E’s application on November 15, 2012, PG&E presented a joint proposal with the Center for Accessible Technology (CforAT) to address certain accessibility issues.^{7/} To PG&E’s knowledge, no party other than PG&E has provided testimony on the joint proposal.

B. Joint Parties

On May 24, 2013, the Joint Parties and PG&E entered into a settlement agreement and filed a motion with the Commission for adoption of the settlement agreement. On June 24, 2013, the Greenlining Institute submitted comments on the motion, as did The Utility Reform Network (TURN) and CforAT in a joint filing. These comments expressed support for the settlement agreement, subject

^{1/} ACR, page 6.

^{2/} See Section I below.

^{3/} See Section II, as well as Attachments A and B.

^{4/} See Section II and Attachment A.

^{5/} See Section III.

^{6/} See Section IV.

^{7/} Exhibit (PG&E-5), Ch. 11.

to certain reporting requirements. On July 8, 2013, the Joint Parties and PG&E filed a reply, stating that PG&E was amenable to the additional reporting requirements.

C. Ongoing Discussions

At present, PG&E is engaged in settlement discussions with a few parties. These discussions have taken place under the umbrella of Rule 12.6 of the Commission's Rules of Practice and Procedure and are considered confidential. Therefore, it would be inappropriate to identify the parties engaged in those discussions or the specific matters discussed. Nonetheless, for the purpose of this Case Management Statement, the parties participating in these discussions have agreed to disclose that the discussions have focused on specific issues and not on an overall revenue requirement.

PG&E is unable to predict whether these ongoing discussions will be fruitful. Regardless, PG&E believes that further discussions as the case proceeds may prove beneficial in arriving at certain stipulations or agreements.

II. ORDER OF WITNESSES AND CROSS EXAMINATION TIMES

PG&E and the other parties to the proceeding have jointly prepared the list of witnesses and estimates of cross examination times set forth in Attachment A. Information regarding availability of witnesses and requests to testify on "dates certain" are also included in Attachment A.

The order of witnesses is to follow the presentation of witnesses in Attachment A, subject to certain exceptions. One exception would be where a witness is unavailable on the specific date he or she would otherwise be called. Another exception would be where the parties have proposed dedicating days to certain topics (e.g., depreciation, Safety and Enforcement Division (SED) reports), in which cases witnesses might be called out of their usual order.

To help manage these exceptions, PG&E has prepared the prototype calendar that is included in Attachment B, which will be updated and circulated on a daily basis in the hearing room. Similarly, each evening during hearings, PG&E will email parties with a report on the witnesses that have completed their testimony that day, as well as the witnesses expected to testify the subsequent day.

III. LIST OF WITNESSES WITH NO CROSS TIME

PG&E has organized below, by party, the witnesses for whom no cross-examination is currently estimated by the parties. This information is derived from the estimates set forth in Attachment A.

PG&E: Jennifer Gardyne; Patricia Gideon; Judith Gutierrez; Joyce Ibardolasa; Kevin Knapp; Christopher Thomas, Jr.; and Sarah Ward.

DRA: Francis Fok and Joyce Lee.

TURN: Hayley Goodson.

Cal-SLA: Alison Lechowicz.

CCSF: Richard Stephens.

CCUE: Tom Dalzell.

ESC: Karen Sawislak and Joshua Sperry.

Greenlining: Stephanie Chen and Noemi Gallardo.

Joint Parties/NAAC: Faith Bautista.

Overland: Gary Harpster.

SCE: Paul Hunt, Jr.

IV. OTHER MATTERS

A. List of Exhibits

In order to facilitate efficient use of hearing room time, PG&E will maintain a running list of exhibits throughout the hearings. This list will indicate party, witness, attorney and, as appropriate, date identified and admitted into evidence.

With the help of the parties, PG&E has prepared a list of all testimony and, as appropriate, workpapers that parties intend to move into evidence. This list is included as Attachment C. It includes the following:

//
//
//
//

- On November 15, 2012, PG&E submitted Exhibits (PG&E-1 through PG&E-13) and associated workpapers;
- On March 19, 2013, PG&E submitted Exhibit (PG&E-14) - Errata;
- On May 3, 2013, DRA submitted direct testimony;
- On May 17, 2013, 12 intervenors submitted direct testimony. These intervenors were: TURN, Cal-SLA,^{8/} CCSF, CEP, CCUE, EPUC, ESC, Greenlining, Joint Parties, MEA, Merced and Modesto ID, and SBUA.
- On May 17, 2013, the SED Safety Consultants, Liberty Consulting Group and Cyclac Corporation, reports were provided to the service list;
- On May 31, 2013, the Overland Consulting report was provided to the service list;
- On June 28, 2013, PG&E submitted Exhibit (PG&E-15) – Errata, as well as Exhibits (PG&E-16 to PG&E-28) consisting of rebuttal testimony;
- On June 28, 2013, TURN, A4NR,^{9/} CCUE, ESC, Joint Parties, MEA, Picarro Inc.,^{10/} SBUA, and SCE submitted rebuttal testimony.

Attachment C generally reflects the naming convention set forth in the ACR.^{11/} For example, PG&E’s first exhibit has been identified as PG&E-1. DRA’s first exhibit has been identified DRA-1, and so on.

B. Request from A4NR

Mr. Geesman of A4NR is unavailable on July 15 on other Commission business. He has asked that PG&E’s two lead witnesses, Messrs. Earley and Johns (who are scheduled to testify on July 15), be recalled on an alternative date so that Mr. Geesman can cross examine each of them for ten minutes. PG&E opposes A4NR’s request for several reasons. First, it is generally understood in CPUC practice that witnesses are expected to testify once, after which they are excused. This practice minimizes the burden and disruption to witnesses of multiple appearances -- a factor particularly

^{8/} Cal-SLA re-served its testimony to the service list on July 3, 2013.

^{9/} On July 3, 2013, PG&E filed a motion to strike A4NR’s testimony in its entirety. The motion is pending.

^{10/} Also on June 28, 2013, Picarro filed a motion seeking party status. The motion is pending.

^{11/} ACR, Appendix D, p. 1.

relevant for executives such as Messrs. Earley and Johns. Second, the timing of their appearance as PG&E's lead policy witnesses has been generally known since the January 22, 2013 Scoping Memo, thus there should be no surprise here. Third, Mr. Geesman's cross-examination is short and could be pursued on July 15 by one of his colleagues or another intervenor. Fourth, Mr. Geesman could ask his questions through data requests, which, if relevant, PG&E would be willing to stipulate into evidence.

Respectfully submitted,

By: /s/ Steven W. Frank
