Geisha and Fong,

A cross-functional team led by Bob Woerner and myself developed a suggested response to the LSA letter you received on June 26, 2013. Please review the draft response and let me know if you have any questions or would like to discuss.

When developing the draft response, we considered Governor's Office communication (the Nick Chaset letter, received by PG&E via the CPUC Energy Division) on the issue as well as ongoing internal discussions on process improvement between EP and EGI. In addition to members of our respective EP and EGI teams, Mark Krause and Redacted both reviewed and provided comments to the draft response.

A larger, cross-functional EP and EGI working group has been formed and is meeting regularly to develop enterprise-wide strategies to address ongoing interconnection and commercial concerns. I would also be happy to discuss this effort more fully with you.

Thanks,

Don
