Hi Meredith,

I know this isn't your area, but can you have someone update me on the incident at Bear Flag way and J street in Sacramento? It's just down the street from my home.

Thanks,
Ditas

Hi Ditas,

Diablo produces 18,000 GWh, which is 20% of the power in PG&E's service territory.

Please let me know if you need additional information.

Thanks,

Meredith

Meredith,

Just curious, I know SONGS provides 17% of

Southern CAs power, what does Diablo canyon produce for norCa or as a percentage of PGEs territory etc? Or at least some kind of comparison?
