Subject: FYI ACTION re coffee machine on 10th Flr/77B break area

Hi, There!

This week, our 10th Floor, 77 Beale, coffee machine has been overflowing with coffee, which causes a mess and safety hazard.

*Please press **START ONLY ONCE**.* It may take several long seconds for coffee machine to spurt out water onto the coffee filter. If you hit more than once, it'll double, triple, etc., depending on how many times you press "start."

Vasquez already came by and said our coffee machine is in excellent condition and needs no repair. Many thanks for your help!
