Subject: 30-Day NEM Report

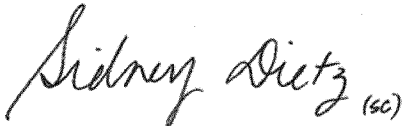

Dear Mr. Randolph:

Effective January 1, 2003, California Public Utilities Code (PUC) Section 2827(e)(1) requires that electric service providers notify the Commission if the processing of a request for establishment of Net Energy Metering (NEM) service for solar or wind generators exceeds thirty (30) working days from the date the electric service provider receives the customer's completed application (including a signed interconnection agreement and final inspection clearance from the governmental authority with jurisdiction).

In compliance with the PUC Section 2827, PG&E respectfully submits the enclosed summary sheets list solar and wind interconnection projects that meet these criteria for the Second Quarter of 2013, from April 1, 2013 to June 30, 2013. To protect customer confidentiality, a Project's ID number is used to identify projects. Also provided are: 1) the reason the interconnection has not yet been approved; and 2) the expected completion date.

Unless directed otherwise, PG&E will continue to submit this notice to you in this format on a quarterly basis.

Sincerely,

Sidney Dietz
Director, Regulatory Relations
