**II. MOTION TO BECOME A PARTY**

a. Allco’s Interest in the Proceeding—Rule 1.4(b)(1)

Allco Renewable Energy Limited, on its own and through affiliates, (“Allco”) is a developer of solar energy projects in California. Allco’s projects include projects that are 1.5MW or less, and that have executed power purchase agreements with the California investor-owned utilities. b. Allco’s Contentions in the Proceeding—Rule 1.4(b)(2).

As a developer and owner of solar projects under the Section 399.20 FIT, Allco has an interest in the Commission’s policies and decisions to support the state’s achievement of its long-term renewable energy goals. Our participation will focus on substantive contributions to ensure that the resulting policies that affect the design, implementation, and review of the state’s RPS

procurement program and related regulatory policies will best promote the greatest amount of cost-effective resources in accordance with State and Federal law. For these reasons, we have a direct interest in this proceeding, that is not adequately represented by any other party.
