Subject: SED Quality Review Plan for PG&E PSEP

Hi,

I'm very pleased to be sharing a first draft version of the SED Quality Review Plan for PG&E PSEP. This document is intended to provide an overview to the methodology that SED staff intends to use going forward in providing regulatory oversight to PG&E PSEP work. We are hoping to make this document public in the near future.

Please let us know what comments, questions or suggestions you might have. This is intended to be a 'living document' and will be updated going forward as well.

Kind Regards,

Liza

PS: Big "thank you" got to Maria for putting this together!
