Subject: Re: Moss Landing question

Charlyn - good to gear from you. PG&E does not own or operate the Moss Landing Power Plant. PG&E was required to divest it during deregulation engendered by AB1890. I believe the plant is own by GenOn or NRG. I can ask our procurement folks to reach out but I'm not sure we can facilitate it on such short notice. Let me try.

Fong/Roy/Marino - do you know anyone there that could arrange something early this afternoon ?

Hello Brian,

We are in lovely Monterey, and we realized we'd be passing Moss Landing Power Plant on our way home. Would it be possible for us to stop by? I do not know the plant manager's name, so thought it best to go through you. There are four of us, including Commissioner Ferron, and we don't need a full tour, but would love to be able to see the plant. Very sorry for the short notice. I'll be monitoring my email during the Commission meeting. Let us know what you think.

We don't know how long the meeting will go, but it would be the afternoon at the earliest I think.

Charlyn Hook

Legal Advisor to Commissioner Ferron
