Subject: Re: Kern Power Plant Incident.

We won't really know about any potential connections until we conduct our investigation. I can tell you that the prior incident did not involve the use of explosives. I don't know what communications we have had with Cal-OSHA so far, but will check.

Erik

>> At approximately 630 a.m today, a serious incident occurred at the Kern Power Plant. In the process of taking down the boilers through an explosive demolition, a piece of shrapnel from the explosion escaped the perimeter, crossed a street and landed in the Lowes shopping center parking lot, injuring a customer severely. I don't have any other details at this time on the extent of the injuries. I will provide you with more as the come available.
