**BEFORE THE PUBLIC UTILITIES COMMISSION
OF THE STATE OF CALIFORNIA**

Order Instituting Rulemaking to Continue
Implementation and Administration of
California Renewables Portfolio Standard
Program.

Rulemaking 11-05-005
(Filed May 5, 2011)

**SUPPLEMENT TO RENEWABLES PORTFOLIO STANDARD
PROCUREMENT PLAN OF
COMMERCIAL ENERGY OF CALIFORNIA**

In accordance with the July 24, 2013 Administrative Law Judge’s Ruling Requiring a Supplemental Filing to the 2013 Procurement Plans to Address Safety Considerations, Commercial Energy of California, Inc. (“Commercial Energy”) hereby submits this Supplement to its 2013 Renewables Portfolio Standard (“RPS”) Procurement Plan for the period of 2013-2033.

1. Assessment of Safety Considerations:

As stated in its Procurement Plan filed June 28th, 2013, Commercial Energy currently serves a small portion of the state’s direct access (DA) load and expects that will not increase unless and until the legislature increases the amount of load that is eligible for DA service. Commercial Energy has met past procurement obligations through a mix of bundled and REC-only transactions in compliance with the minimums and maximums allowed and/or required for the various categories, and plans to do the same to meet its future RPS obligations. Commercial Energy does not own or operate any renewable facilities, nor is Commercial Energy involved in any renewable facility project development. Therefore, Commercial Energy does not have any safety concerns regarding its Procurement Plan at this time.

Respectfully submitted this 28th day of August, 2013 at Oakland, California.

/s/ Patrick VanBeek
