Ken, thank you and your team for making the trip to San Ramon to hear about our Gas Safety Excellence approach to asset risk management. Please let us know if you have additional questions or need information; and if you would like a demonstration of Picarro, Laura Doll can help arrange it for you.

We look forward to giving you a briefing on our upcoming Gas Transmission and Storage rate case, which will provide a full and descriptive showing of our safety management system, and the risk mitigations that we will be proposing.

Jane
