Ah! Yes, I remember that one. Happy to talk with you about that.

I'll make a note and will call you Tuesday.

Thanks Laura. It is about GHG costs related to some gas compression stations in addition to the six that the Commission approved in D. 13-03-017.

Will do Gurbux. And we are still working on that response re biomethane and LUAF. I think we may be overthinking it . . . but I'm determined you'll get it this week.

I need to find out what AL 3393-G is but will do that and will call you Tuesday.

Hope you get a break this weekend at least ☺

Laura, I need to talk to you regarding this AL. Please give me a call early next week. The rest of this week is kind of crazy.
