Ray,

I know you are out of the office but wanted you to be aware of a situation with Redacted in Redacted. Our Vegetation Management and Customer teams have made numerous attempts since late last year to discuss with the owners scheduling vegetation management work for the NERC lines on their property. The owners have been non-responsive. Given that there are wild animals on the property we cannot have our workers access the site without an escort.

We will be sending a letter early next week letting them know that we need to schedule the work or we will have no other option but to seek relief in court.

Please let me know if you have questions. We can also provide more information at the vegetation management meeting next week.

Thanks,

Meredith
