Commission's EE Risk/Reward Incentive Mechanism

Julie –

Thanks for the news about the bridge closure, I heard it from you first.

This one was hard to schedule – can keep the time and try to do it as a phone teleconference? It's imperfect, but there's going to be a lot of imperfection when the bridge is down.

yours,

sid

Hi Sid,

I just read in the paper this morning that the bay bridge will be closed this day. Would you mind coming in a different day for this meeting, maybe even the week before (a week from today)? It may be hard for all of us East Bay dwellers to get in the office this day, and it's the Friday before labor day, too. Thanks.

Julie
