Attention: Redacted, Sr. Vice President

**Re: NOTICE TO IMMEDIATELY STOP ALL WORK FOR PG&E'S GAS OPERATIONS
ORGANIZATION**

Dear Redacted

Because of issues associated with the welding x-ray work performed by two TC Inspection technicians on PG&E's Line 114, PG&E hereby directs TC Inspection to stop all work being performed for PG&E's Gas Operations organization immediately upon receipt of this notice. PG&E expects TC Inspection to compensate PG&E for all loss associated with TC Inspection's failure to comply with PG&E's welding and x-ray specification, including but not limited to all costs associated with any needed inspection and re-work on all facilities on which TC Inspection has performed work for PG&E. PG&E will follow up with TC Inspection regarding the associated costs.

Please contact the undersigned with any questions regarding this notice.

Very truly yours,

Steve Coleman
Director, Transmission and Distribution Sourcing
