Brian - Please keep me in the loop on any details related to this incident.

Erick - I'm reviewing the details from the 2012 Kern incident, investigation, root cause analysis etc.. I think you were the primary regulatory lead on that for PG&E, so please share anything that you think is relevant with me as well.

Subject: Kern Power Plant Incident.

At approximately 630 a.m today, a serious incident occurred at the Kern Power Plant. In the process of taking down the boilers through an explosive demolition, a piece of shrapnel from the explosion escaped the perimeter, crossed a street and landed in the Lowes shopping center parking lot, injuring a customer severely. I don't have any other details at this time on the extent of the injuries. I will provide you with more as the come available.

Stan - please make sure the proper PUC personnel are notified.

Brian K. Cherry
