Yes, I have it. I'll let you know if I need anything else.

In the meantime, what's PG&E point of view on any linkage between the two incidents?

Also, have you had any inquiries from Cal-OSHA or any other agencies about the incident this morning?

Do you have the root cause analysis? I'd suggest you start with that document.

> At approximately 630 a.m today, a serious incident occurred at the Kern Power Plant. In the process of taking down the boilers through an explosive demolition, a piece of shrapnel from the explosion escaped the perimeter, crossed a street and landed in the Lowes shopping center parking lot, injuring a customer severely. I don't have any other details at this time on the extent of the injuries. I will provide you with more as the come available.
