Hi,

Just spoke with Gery and we decided to start at 8.30am. Alin is driving down from Sacramento, so he will be arriving a little later - probably around 9.30am.

Gery also requested that there would be a radiographic viewing box available, which I'm sure you have at the ATS Walnut Creek facility.

See you all tomorrow,

Kind Regards,

Liza

Liza

Here is a map for you to pass on to the PHMSA/Oak Ridge team.  
We will be meeting in Building Z, and that is at 6121 Bollinger Canyon Road on the attached map.  
There is lots of parking outside.

We will have:

Kirk Johnson, VP of Major Projects and Programs Peter Kenny, Director of Gas Construction and our NDE lead [Redacted] Engineer with Applied Technology Services [Redacted] Engineer, Welding and NDE Services Frances Yee, Regulatory & Field Compliance Manager [Redacted], a lead consultant, will be available by phone And me (Jane Yura has jury duty!)

We will first do introductions and get oriented at Bishop Ranch and determine exactly what the team wants to review. Since the Oak Ridge person is a Level 3 x-ray tech, we assume he will be interested in reviewing original x-rays and the results of the AUT testing. Those documents are currently at the ATS facility in Walnut Creek, a short drive away, and so we expect to go over there as well.

Can we touch base later this afternoon after you have talked with the team and see if they have any other specific requests?

Thanks  
Laura
