Subject: Waste Zero Contest Week 2 Update

Happy Day!

We're now at the halfway point in our General Office Waste Zero Contest! Hopefully, you'll be totally inspired to redouble your efforts for the "home stretch." Our 10th Floor is off to a great start, having increased our average diversion rate by 4 percent from last year's contest, and maintaining our 17th place out of 49 Floors!

Many of you are taking charge and using our humongous tong to put items in the correct bins. What's exciting is that so many 10th Floor folks are helping each other to see if waste items are being placed into the proper recycling, composting, and landfill bins! Now, that's team work, gang!

Below is the chart that shows the top 10 floors. While holding onto our 17th place (yay!) for the second week, Reg Affairs' 9th Floor is in 10th place (woo hoo!) and 13th Floor is in 25th place (A-Okay!). Click [here](#) to see how we stack up to the competition.
