Commissioners and staff,

In advance of next Tuesday's en banc on the Utility Business Model of the Future, attached please find three documents for your information. The first is a staff briefing paper, the second is a document containing questions that NRDC and the Energy Foundation suggest be asked of the CEO panel, and the third is a powerpoint presentation put together from the three IOUs.

Finally, this is a link to a webpage put together by the Energy Foundation which contains several industry publications on the topic.

Please let me know if you would like briefing on any of this. Best regards, Kristin
