Subject: Re: PG&E PV Program Termination Advice Letter

Working on this. I need to meet with the ALJ

Sent from a "smartphone" which helps us communicate but makes us illiterate.

Ed,

Could you help us get resolution of PG&E's pending advice filings to terminate our PV program and move the remaining volumes into RAM?

PG&E filed advice letters 4160-E and 4161-E on December 10, 2012. 4160-E requests termination of our PV program. 4161-E requests authorization to move the remaining 252 MW from the PV program into RAM. I understand that these advice filings are being held up because of a disagreement between Energy Division and the ALJ division over whether or not it is appropriate to make these program changes by advice filing. D.10-04-052 authorizes PG&E to terminate the PV program by advice filing and we were advised by your staff almost one year ago to make this request by advice letter.

Anything you could do to help resolve this impasse would be much appreciated.

Thanks,

Erik
