Subject: RE: avg residential bill

Thanks, I should have thought to ask sooner, but would it be easy to also disaggregate by CARE/non-CARE? I assume the figures below are for all basic service combined.

Scott

Here are the average summer and winter residential bills, calculated from billing data over the 12-month period from July 2012 through June 2013 (for Basic Service, not All-Electric):

Summer	Winter
--------	--------

X	\$95	\$98
T	\$62	\$73
S	\$137	\$100
R	\$159	\$100

I was able to get this faster that I was told previously. Let me know if you need anything further.

Hi John,

I have a question that I'm hoping someone in your group can answer relatively easily. What is

the average summer residential electric bill in each major baseline territories (X, T, S & R)?
Average winter electric bill?

Thanks
