Thx Tory. I am cc'ing my ESA clients Redacted and Redacted for their review. From PG&E's perspective and subject to Redacted and Redacted confirming, we are looking at including the following info sharing revised language directly on our 2014 ESA forms, if there is consensus to do so.

Redacted please feel free to add to our response and keep Tory in the loop.

Chris

Subject: Proposed Consent Language for ESA Enrollment Form

FOR INTERNAL USE ONLY

Hi Ronn,

Here is the language that the IOUs wanted to share with you as a way to receive customer consent for releasing data. The IOUs are proposing that this or similar language for each IOU be added to our ESA enrollment forms. Obviously, to make sure we do not put the cart before the horse, we would be interested in an update on the CSD database to make sure this all would sync up in terms of timing.

Can you please forward the meeting notice and language to anyone else add CSD that should see it as well for the 3pm call?

"Section 4 - Other Utility, State, and Federal Program Information

I give my consent to Edison to share the address contained in this document, any measure received at this address, and the date any such measure is installed, with other utility, state, and federal programs for the purpose of coordinating the delivery of services for other no cost energy efficiency and energy bill payment assistance programs. I give my consent to Edison to use the information contained in this document to provide me information on other such programs for which I may qualify. This includes, but is not limited to, programs such as the State of California's Low Income Home Energy Assistance Program (LIHEAP).

Also, I would be interested in anything else that you think we should talk about prior to Monday's CPUC task force call.

Sincerely,

Mike Tomlin
