Subject: Fwd: L-114_2 Tie-in Request Documentation

Liza, part one, to support our request to gas-in L-114.

I apologize, but the size of one of the attachments won't let me send through your server. I will have to send the weld sheet PDFs separately in the morning. I was able to attach the inspection sheet to this email.

Thank you,
Jane

Jane-

This is email (1) of (2). Attached to this email are "L-114_2Weld Docs part 1" and "Weld Inspection Verification Check List R1".

These documents have been provided to the CPUC field inspector and are to support PG&E's request to re-introduce gas to L-114_2 between Antioch and Brentwood terminal to bring this segment back into service.

Thank you for your support on this project.
