MAOP of Line 147

Question 1:

Is the issue PG&E has raised regarding 49 CFR 192.611 applicable to Line 147?

If so, will PG&E be seeking to increase the MAOP for Line 147 above 330 psi based on 49 CFR 192.611, or some sort of exemption from its interpretation of 49 CFR 192.611?

Ratepayer Advocates in the Gas, Electric, Telecommunications and Water Industries

SB_GT&S_0034476

Question 2:

With regard to Line 147, does PG&E plan to seek some sort of exemption from the requirements of the federal code in order to operate Line 147 higher than its design MAOP?

Please send your response to the Originator, and a copy of your response to Project Coordinator and e-copies to the following ORA representatives:

Pearlie Sabino – pearlie.sabino@cpuc.ca.gov
Tom Roberts – Thomas.roberts@cpuc.ca.gov
Nat Skinner – Nathaniel.skinner@cpuc.ca.gov
Karen Paull – kpp@cpuc.ca.gov
Traci Bone – tbo@cpuc.ca.gov

Please provide two copies of the above information as it becomes available but no later than the due date identified above. If you are unable to provide the information by this date, please provide a written explanation to the data request Originator immediately describing why the response date cannot be met, and your best estimate of when the information can be provided. Please identify the person who provides the response and his/her phone number and email address.

Provide electronic responses, if possible, and a set of paper responses with your submittal to the ORA Project Coordinator and the originator of data request. All data responses need to have each page numbered, referenced, and indexed so worksheets can be followed. If any number is calculated, include a copy of all electronic files so the formulas and their sources can be reviewed. State any assumptions underlying your responses.

If you have any questions regarding this data request, please contact the originator.
