Subject: RE: self-reports and causal analyses

Actually it looks like Monday 10/28 is the only option for early next week. I sent an appt. for 2PM but can change the time if the date works for you. Thanks,

Ken

Sure - Next weeks sounds good. I'll send out a few options tomorrow.

Ken, with the BART strike, we're a little challenged on logistics this week --- hopefully it will be resolved soon. Can I propose we reschedule our meeting to early next week if you are available?

In preparing for our meeting on discussing possible citation groupings, I've prepared a couple to start with, and have a couple others we review in another meeting:

- 1) HPR's (we have 4 other related HPR reports, and the common thread is our comprehensive HPR program)(192.145, 481, 739)
- 2) MAOP exceedences (about 9 reports: 192.201, 619, 621)

- 3) Leak survey (about 11 reports)
- 4) Corrosion control (about 17 reports)

By reviewing the first couple, you could determine what approach could work for grouping.

Thanks,
Jane
