**Subject:** Sen Hill hearing on San Carlos and communications issue

Below is the official invite to participate in an informational hearing that Sen Hill is holding on Monday Oct 28 in San Carlos.

We spoke with Sen Hill last night and he expressed interest in having Nick testify but I told him it would likely be someone else due to scheduling conflicts. As I understand it from discussions with Bedwell, Sumeet or Kirk could be available to provide PG&E's comments at the hearing. I would like to confirm our witness with Sen Hill's staff today or over the weekend.

The focus of the hearing as described below is our communications process with local gov't's with respect to work on our gas system and verification of the safety of the lines through a local jurisdiction.

I will connect with Sen Hill's staff later today but wanted to get at least this information to the team to start the process.

**Subject:** Hearing on city/utility/PUC communication

Kent,

Here are the details on the hearing, finalized today:

Committee:

Senate Subcommittee on Gas and Electric Infrastructure Safety (under Energy, Utilities, and Communications)

Title:

Improving Safety Communication Among Cities, Energy Utilities, and the California Public Utilities Commission

Location:

City Council Chambers

San Carlos City Hall

600 Elm Street

San Carlos, CA 94070

Date and Time:

Monday, October 28

11am

Consider this PG&E's formal invitation to participate.

Could we talk about how to proceed? My desire is that we can work through some of the issues in the coming week so that your people understand where the cities are coming from, and we can have a productive outcome to the hearing.

Thanks,

Tony
