Brian – see this language that was taken out of a decision on a similar matter. Perhaps you can use the concept.

To enable the Commission to determine the procedural and substantive requirements as well as allow the parties to plan for future such requests, we require that PG&E submit a comprehensive timeline for all natural gas transmission lines subject to pressure restrictions for which PG&E expects to seek permission to restore MAOP. The Commission will separately specify the procedure to be used for these future requests. Depending on the rigor and specificity of the information PG&E contemplates providing in support of a particular request, we do not foreclose the possibility of a delegation of authority to the Executive Director to act on the request. However, all requests will continue to be filed and served on the parties and on local officials. We adopt the following filing requirement for PG&E to present a comprehensive description of the lines where it will be seeking authorization to lift operating pressure restrictions as well as the information PG&E intends to provide to demonstrate
