Subject: Comments on ESPI Uncertain List

To all parties in R.12-01-005:

Thank you to those who participated in today's webinar. The presentation is now posted to the CPUC's Public Documents Area website (<http://www.energydataweb.com/cpuc/home.aspx>). Please search "ESPI" under the search tab to find the presentation.

The P4 Uncertainty Analysis presentation discussed during the September Quarterly Stakeholder meeting is also available on the front page of the Public Documents Area website under the "Quarterly Meeting Notes, Agendas, & Presentations" section.

As noted during the webinar, I would like comments on the draft 2013 ESPI Uncertain List and if/how it should be modified for 2013, 2014, or both program years. In your feedback, please consider the following:

- Are there measures on the list where ex post study is not likely to lead to a better savings estimate than what we currently have?

- Are there measures on the list that will be overly burdensome or expensive to study?
- Are there measures that are not currently on the ESPI list that should be awarded on an ex post basis?

Each commenter will need to sign up for a free account on the Public Documents Area in order to post a comment. Comments can be posted as attachments. Comments are due by COB on Thursday, November 21.

If you have any questions, please feel free to contact me at [katie.wu@cpuc.ca.gov](mailto:katie.wu@cpuc.ca.gov) or at 415.703.2452.

Thanks,

Katie
