Keep your fingers crossed. Looks like we might allow videotaping.

Brian,

After your back and forth with Ed Randolph, PG&E has now decided it wants to videotape the SSHAC meeting. We are checking with APS to make sure they are OK with this. We should have a final decision tomorrow. I have not yet contacted Rochelle Becker because I was waiting for this to get resolved. At that point, you could follow-up with Ed Randolph to tell him we reconsidered his proposal and will now accommodate A4NR. I can still follow-up with Rochelle, or Ed may want to do that given that this would be a good news message.

I will let you know once I get word of the final decision.

Erik

Erik,

PG&E has decided to videotape it, but since we are partners with another utility, Arizona Power Services, I need to make sure they do not object. Yes, arrangements have not yet been made to videotape and to transcribe the videotapes.

Question for you and Jennifer: For the two PG&E SSC SSHAC workshops we held in SLO, we did videotape the sessions and posted them on our website. We did not post the transcripts from the videotapes. I intend to do the same for the SWUS GMC SSHAC workshop, only post the videos. If requested we can provide transcripts. Agreed?

Rich

Rich, Do you mean we haven't reached a final decision on whether or not to videotape the SSHAC workshop, or have we decided to tape it and we are just now sorting out the arrangements? Erik

Jennifer and Erik,

I will let you know when videotaping of the subject workshop is arranged. This topic will be discussed at the SWUS GMC SSHAC project team meeting on Wednesday, 10/9.

Rich:

When you know our plans regarding whether we will videotape the GMC SSHAC workshops scheduled for October 22-24, will you please hit reply to all to let me and Erik Jacobson know. Erik will be contacting Rochelle Becker directly to let her know the public will be admitted to the workshops and would like to be able to say whether or not we will also be videotaping.

Thanks,

Jennifer
