**DATA REQUEST SET CEJA\_DRA\_Sierra Club-SCE-004**

**To:** CEJA\_DRA\_SIERRA CLUB  
**Prepared by:** Daniel Donaldson  
**Title:** Power Systems Planner  
**Dated:** 09/17/2013

---

**Question 02:**

For all of SCE's power flow studies, has SCE estimated the effect of transmission upgrades on SDG&E's service area LCR need? If the answer is no, please identify whether any transmission upgrades studied are likely to reduce LCR need in SDG&E's service area.

**Response to Question 02:**

SCE coordinated with SDG&E to ensure that, for all scenarios SCE studied, LCR needs within SDG&E's service area were met. SCE did not specifically analyze whether any of the transmission upgrades that SCE studied would reduce SDG&E's LCR need. However, SCE expects that the Valley – Alberhill – San Onofre 500 kV transmission line project would likely reduce the LCR need in SDG&E's service area.
