Subject: Re: Status of Line 147

Laura,

Thank you for the update.

Considering the extent of public concern, SED directs PG&E to keep Line 147 shut-in and not above the current pressure of 125 psig until SED notifies PG&E of the next steps.

In case of emergency conditions, PG&E is expected to operate the line, as well as the rest of the system, in a manner compliant with any applicable rules, regulations, procedures and in a manner that's needed to maintain the safety of the public and of the system. If emergency conditions were to arise, or PG&E becomes aware that an emergency condition is imminent, PG&E must notify the Commission and SED immediately.

Please let me know if you have any questions.

Regards,

Elizaveta

Subject: Status of Line 147

Liza

Our Gas Control group has notified us that Line 147 is now at 125 psig.

Thanks

Laura
