Oh man! Too good!! Love the notes.

It would be funny just to have a simple slide on your ORA background:

Don't 'Reply All'.

Handout notes: The previous version of this module encouraged participants to "Use judgment when using 'Reply All'," but we realized that this was not effective or logical for this audience. So, let's stick with "Don't 'Reply All'"

Okay, here's my draft:

When we did the admin-assist training last year, we had a module entitled "Appropriate Use of 'Reply All.'" I've included the PowerPoint presentation we used. Perhaps you could include it in your "Tips, Techniques, and Timesavers" training.

CPUC Supervisors and Managers,

You will soon be receiving an invitation to some upcoming training entitled "Tips, Techniques, and Timesavers, on Feedback and Documentation."

As you may be aware, the CPUC has made some changes recently which reflect our renewed commitment to improving our collective skills in the area of performance management. In the past, providing helpful feedback and documenting performance have not always been areas we have excelled in, but we are learning from past mistakes and moving in a new direction. Towards that end, we have made some changes in the Human Resources office and have hired our first full time Employment Lawyer.

Holly Bride Hayashida, our Employment Lawyer, will be providing the training. It will be offered several times in San Francisco and in Los Angeles and also in Sacramento so you should be able to find a time and location that is convenient for you. The training is mandatory for all supervisors and managers.

I think you will find the training both helpful and enjoyable.
