Meredith:
I will check the schedules of those people from the CPUC, tomorrow and get back to you.

Ray,

I think it would be helpful to have Barry Anderson, VP Emergency Preparedness and Response attend the discussion on emergency communications. It would be an expanded scope but Barry could provide an overview of the improvements that PG&E is making in the areas of emergency preparedness. We could then also have a conversation about how PG&E and the CPUC would communicate in a major incident, such as an earthquake in our service territory. The problem is that he will be on a plane on 11/6. Are you planning to be in SF on 11/5? He could make a meeting late in the day. Or we could schedule for when you are in SF later in November or early December.

Thanks,
Meredith
