Indeed. And of course, no need for you guys to support her too visibly – might raise eyebrows.

BTW, we spent some time this morning with the IBEW folks down at the PG&E yard on Harrison Street. Where the real work gets done. It was informative, and we learned that the gas guys are happier these days than the electric ones! Just so you know. Only had to leave the house at 5:30 this morning the day after vacation! But glad we did it. I recommend visiting and hearing from those folks first hand about what rate cases mean to them... (and no, it was not at all orchestrated by Marc Joseph and company – it was clearly random, what we heard).

Yes. Despite what people might say from time to time. ;-)

No. We just want to make sure that it happens before she turns into a pumpkin on the 15<sup>th</sup>. We are supportive of her confirmation.

Rules committee will meet on the 8th (I think they always meet Wednesdays), so I assume the 9<sup>th</sup> is the date for the full senate consideration, if (hopefully) she is successful on the 8th.

Thanks. This is consistent with what we were told, but always good to see what they are telling inquiring minds...
