5. LOOKING AHEAD

The unique situation faced by SDG&E in 2014 and 2015 may be eliminated if the CAISO allows the System Protection Scheme to manage certain contingencies. The CAISO has not yet made a determination as to whether this will happen, or if it does, on what timeframe. SDG&E is engaged in ongoing discussions with the CAISO on this matter.

The option for compliance year 2015 allows SDG&E to remove some of the uncertainty that is part of the evolving California RA market. If changes in the RA market for 2015 are more favorable to SDG&E's ratepayers than the existing confirmation, the option allows SDG&E to terminate the RA confirmation for the 2015 compliance year. Yet at the same time the option language in the confirmation provides upside protection to SDG&E's ratepayers for compliance year 2015 as well. This extension option gives SDG&E's ratepayers flexibility and some certainty in an uncertain RA market.

E. PROCUREMENT REVIEW GROUP (PRG) INVOLVEMENT

When the first draft of the 2014 LCT Study was issued, SDG&E has been discussing with its PRG its concerns regarding the emerging 2014 and 2015 RA complexities and obtaining its feedback. The topic was presented to the PRG at each meeting between April and September 2013, with each month's discussion narrowing in on potential solutions to the challenges associated with 2014 and 2015 resource adequacy in the San Diego Local Capacity Area and the need to contract with the CAB II for local RA until the end of 2015.

After discussions with the PRG, there appears to be a general consensus among the PRG members that the transaction proposed herein is in the best interest of SDG&E's ratepayers.

F. INDEPENDENT EVALUATOR REPORT

SDG&E engaged the services of an Independent Evaluator to (i) review and confirm the implications of the 2014 LCT Study as it relates to resource adequacy in the San Diego market, (ii) monitor the bilateral negotiations, (iii) report on the fairness of the negotiations and the final RA agreement with NRG for CAB II's RA capacity during 2014 and 2015, and (iv) render an opinion on the reasonableness of the chosen solution for meeting 2014 and 2015 resource adequacy requirements and make a recommendation regarding moving forward with the Confirmation.

Merrimack Energy Group, Inc., of Charlestown, Massachusetts, was engaged as the Independent Evaluator. Wayne J. Oliver served as the firm's principal for this engagement. Their report, entitled "*San Diego Gas & Electric Company Submission of a Bilateral Transaction with NRG Power Marketing LLC for the Encina & Cabrillo II Units*," dated October 18, 2013, regarding the above listed topics is attached as Confidential Attachment C to this Advice Letter. Two versions of this report have been prepared: (i) a public version in which certain market sensitive information has been redacted; and (ii) a confidential version in which the full details of the negotiations are provided

G. EFFECTIVE DATE

SDG&E believes this filing is subject to Energy Division disposition and should be classified as Tier 2 (effective after staff approval) pursuant to GO 96-B. SDG&E respectfully requests that this filing be approved effective November 27, 2013, 30 days from the date filed.
