**SUBJECT: LINE 147 RELATED CURTAILMENT INFO**

**QUESTION 1**

Has PG&E completely shut down Line 147? If not, please provide your estimate of how long the shutdown process will take.

**ANSWER 1**

Yes, PG&E has shut down Line 147. It was isolated from PG&E's natural gas transmission and distribution systems on 10/7/13, lowering pressure to 125 psig, taking it out of operational service.
