Dear Mr. Saso

This is in follow up to an issue that PG&E previously brought to the City's attention in January of 2012. The issue was regarding an over pressurized service line in the City of Williams, and our subsequent notification to the California Public Utility Commission (CPUC). The previous letter is attached for your convenience. You will note from the attached letter to the CPUC that the service line problem was corrected immediately after the situation was discovered and currently is operating safely according to standards.

As a part of this same process, last Friday, PG&E received a citation from the CPUC regarding this self-reported incident. I have attached the citation for your review and can tell you that we have accepted the penalty for this self-report incident and will not be filing an appeal.

Thank you for your time in receiving this information. Should you have any questions regarding this filing, please don't hesitate to contact me.

Sincerely,
