

Summary of California's Dynamic Pricing Programs

2012 Ex Post Estimates

	PG&E^A SmartRate™	SCE^B PTR	SDG&E^C PTR
Avg. Opt-In Customer Reduction (kW)	0.280	0.097	0.083
Avg. Opt-In Customer % Reduction	18.0%	4.3%	6.4%
Avg. Opt-In Aggregate Load Impacts (MW)	17.1	14.1	3.7
Avg. Opt-In Customer Count for Season	60,799	146,052	44,160

<u>Reference</u>	<u>IOU</u>	<u>File Source</u>	<u>Pages</u>	<u>Tables</u>
A	PG&E ¹	2012 SmartRate™ Load Impact Protocol Evaluation Report	30-31	4-1; 4-2
B	SCE ²	2012 PTR Load Impact Protocol Evaluation Report	2, 10, 12	4-1; 4-4
C	SDG&E ³	2012 PTR Load Impact Protocol Evaluation Report	3	ES-1

¹ **PG&E NOTE:** In PG&E's 2012 SmartRate™ Load Impact Evaluation, the load impact estimates for SmartRate™ only customers (n=38,667) and customers dually enrolled in SmartRate™ and SmartAC™ (n=22,132) are separated into two tables: Table 4-1 and Table 4-2. SmartAC™ is PG&E's AC cycling program. In the electronic Excel spreadsheet named "2012 SmartRate™ Ex Post Protocol Tables - All Customers" filed with the CPUC under R.07-01-041 on April 1, 2013, the estimates for the both for SmartRate™ only and dually enrolled SmartRate™ and SmartAC™ customers are combined together to produce total SmartRate™ program load impacts. Customers that are dually enrolled in SmartRate™ and SmartAC™ opt-in to having PG&E cycle their AC units when a SmartRate™ event is called. Screenshots of PG&E's ex post load impact protocol tables for this combined customer group are presented on pages 2 and 3 of this presentation.

² **SCE NOTE:** To be consistent with the information presented for PG&E and SDG&E, the SCE PTR load impact estimates presented in the main table include customers from the general SCE population that opted to receive PTR notifications (n=117,942), plus SCE customers that were enrolled in SCE's AC cycling program, Summer Discount Program (SDP) (n=28,111). Like PG&E and SDG&E, the load impact estimates for this combined group is only presented in the electronic Excel spreadsheets filed with the CPUC under R.07-01-041 on April 1, 2013. Screenshots of SCE's ex post load impact protocol tables for this combined customer group are presented on pages 6 and 7 of this presentation.

³ **SDG&E NOTE:** To be consistent with the information presented for PG&E and SCE, the SDG&E PTR load impact estimates presented in the main table include customers from the general SDG&E population that opted to receive PTR notifications (n=41,243), plus SDG&E customers that were enrolled in SDG&E's AC cycling program, Summer Saver (SS) (n=2,917). Like PG&E and SCE, the load impact estimates for this combined group is only presented in the electronic Excel spreadsheets filed with the CPUC under R.07-01-041 on April 1, 2013. Screenshots of SDG&E's ex post load impact protocol tables for this combined customer group are presented on pages 9 and 10 of this presentation.

PG&E's SmartRate (Avg. Customer)

2012 Ex Post Estimates - Dually Enrolled SmartRate/SmartAC(TM)
