November 7, 2013

Pursuant to Rules 8.2(c) and 8.3 of the Commission's Rules of Practice and Procedure, the Center for Accessible Technology (CforAT) and the Greenlining Institute (Greenlining) hereby give notice of the following oral ex parte communication, which occurred on November 5, 2013 at 11:30 a.m. at the Greenlining offices in Berkeley, California. Melissa Kasnitz from CforAT and Enrique Gallardo of Greenlining conferred with Scott Murtishaw, advisor to Commission President Michael Peevey. The meeting lasted approximately 45 minutes with all participants, and an additional 40 minutes with Ms. Kasnitz and Mr. Murtishaw.

At the meeting, Ms. Kasnitz and Mr. Gallardo raised concerns regarding the Assigned Commissioner's Ruling Inviting Utilities to Submit Interim Rate Change Applications ("Phase 2 Ruling") that was issued in this proceeding on October 25, 2013. Ms. Kasnitz and Mr. Gallardo expressed concern that the schedule in the Phase 2 Ruling, which authorizes simultaneous rate design applications to be filed by all electric IOUs and allows only approximately 10 weeks (six of which run from Thanksgiving through the new year) for other parties to conduct any necessary review, discovery, analysis and preparation of testimony, does not allow sufficient time for effective participation by small intervenors. Ms. Kasnitz and Mr. Gallardo also expressed concern that certain statements contained in the Phase 2 Ruling inappropriately direct particular rate design outcomes and thus prejudice the ultimate conclusion of the proceeding without appropriate support or due process.

Ms. Kasnitz and Mr. Gallardo indicated that they would raise these concerns formally in response to the Phase 2 Ruling through comments or other actions as permitted by the Commission's Rules of Practice and Procedure.

Dated: November 7, 2013

Respectfully submitted,

/s/ Melissa W. Kasnitz
