Subject: RE: Testimony of Tom Roberts, Senior Engineer, ORA for Order to Show Cause - Contains information considered confidential by PG&E

Joe,

SED is planning to have a set of supporting exhibits of Ms. Felts' testimony for the ALJ and PG&E tomorrow. A select few of those exhibits are marked confidential and PG&E has not had a chance to redact them yet. We plan on telling the ALJ that we will provide those documents to PG&E shortly after hearings and give PG&E a chance to redact them. Once we have PG&E's redactions to all of the supporting exhibits, we will provide the ALJ with a complete redacted set, and also circulate copies of the redacted set to parties.

Joe/Steve:

In the hope of streamlining things for tomorrow, will PG&E stipulate to the entry of Mr. Roberts' testimony and exhibits into the record of this proceeding? ORA will make Mr. Roberts available for questioning after PG&E's witnesses are done, if PG&E requires that.

Subject: Testimony of Tom Roberts, Senior Engineer, ORA for Order to Show Cause - Contains information considered confidential by PG&E

Parties:

Attached please find the testimony of Tom Roberts, Senior Engineer for the Office of Ratepayer Advocates (ORA), regarding the errors in Pacific Gas and Electric Company's (PG&E) hydrotest data of Line 147. Exhibits to Mr. Roberts' testimony are also attached. Please note that this testimony and the exhibits contain information that PG&E considers confidential.

PG&E:

ORA does not believe that any of the information contained in Mr. Roberts' testimony or the exhibits merits confidential treatment, and that the entirety of the testimony and exhibits should be publicly available. To the extent PG&E disagrees with this assessment, please redact those portions of both the testimony and exhibits that PG&E believes are confidential prior to the hearings on Monday, and forward those redactions to me, Karen Paull, and Tom Roberts.

Thank you, in advance, for your attention to this matter.
