You are a kind and efficient person! Thanks for following up.
The 5th is good for us. Given its a Comm mtg day, let's go with 1:00?
And we will come to you-- if you can get a room?
This PGE preview team is mostly from SF.

Hi Laura,

Thank you again for setting this up for SED. Would the 5th of December work for PG&E? Anytime between 10 am and 2 pm works for us. And location I'm guessing is at PG&E's San Ramon office. Thanks.

Dennis Lee

Thanks Liza and Dennis –
We are trying to schedule a separate session with ED.

We look forward to the discussion with you all.

Laura,

I sent this along to SED staff copied here. Dennis will get back to you with a time that works for everyone. Another question – should we invite Energy Division also or are you planning to do a separate session with them?

Thanks,

Liza

Subject: Overview of upcoming Gas Transmission & Storage rate case

Liza

We will be filing our next gas transmission and storage rate case (aka GT&S) before the end of December, most likely before Dec 20. This will be our first since San Bruno, and it's going to look significantly different in structure from our previous rate case (aka Gas Accord V).

We'd like to provide a high level overview to whomever on your team might be interested before the filing is made. Might there be some time that would work on December 9 or 10? Or 5 or 6?

We can make other days work too of course! Probably an hour would do it.

I don't know if General Hagan has an interest in this, but I would expect that others on your team who work with gas transmission would appreciate the briefing.

Also, I believe you previously mentioned that you likely would not be retaining additional safety consultants for review of this case. Is that still the situation?

Look forward to beginning discussion on this next big issue.

Thanks

Laura
