Michael --

Thank you for the note. I also had a conflict pop up with the kids, so I'm a 50% for tomorrow. I've been in meetings with this group and like them a lot, so I hope I can join. Good luck to you and your father!

yours,

sid

I'm looking forward to being there as well! I hate to throw a monkey wrench into the timing but there's a chance I may be a bit late. I'm taking my dad to do a wound check (he had knee surgery this week) at 8:30. I should be there with plenty of time, but just know I'm on my way.

I don't have any slides - I will just bring me and my willingness to engage.

My mobile is Redacted just in case.

Michael

Hi Michael,

We are looking forward to seeing you this Friday for the PG&E Partnership Post-2014 Planning meeting.

Below is the final agenda which includes a session for you to provide an 15 – 20 min overview of the OIR and to share any other insights, such as your impressions of Partnerships. We've also set aside sufficient time for Q&A. We will have a laptop and projector set up if you would like to present any slides.

We have a really good group of folks confirmed to attend including lead local partners from each PG&E LGP as well as representatives from the BayREN (ABAG), LGSEC, and Local Government Commission. Since the other IOUs have expressed interest in learning more about the great Partnership work we are doing, we have also included my counterparts from each IOU who manage Partnerships.

Additional event details are below. If you have any questions, please don't hesitate to reach out.

Thanks,

Leif
