Good Morning,

This morning we had a call with the panelists for next week's Thought Leaders session on "effective regulation". We'll have Susan Kennedy, Mark Toney, and SolarCity's CEO/founder Peter Rive. The two hour session will be the showcase of what Thought Leaders sessions are all about. The panelists will discuss two overall themes and a few current issues within those two themes. See below.

Your role is to spend 7-10 minutes discussing your overall regulatory philosophy, but not delving into specific proceedings. Also, what are a few changes that you would make if you had all five votes in terms of how the Commission should act as an effective regulatory body. We encourage you to be provocative. Lastly, you are not on the panel, but please stay for the session and also you have the first question when the Q&A session begins.

Theme #1 = What is the role of regulation? what is the role of the PUC? What is the role of DRA?

1. GRCs
2. Safety
3. Telecommunication regulation

Theme #2 = What is the role of rates in the regulatory framework?

1. TOU
2. NEM
3. Fixed Charges
