Subject: NOC question re. Montezuma Wind Project

Hi Meredith

I consulted our legal division regarding your question concerning the PUC approval in November 2011 of the PG&E NOC request for the NextEra Montezuma Wind Project. As I understand it, PG&E thought they would be building and owning part of the interconnection for the NextEra project and therefore PG&E requested PUC approval of an NOC for the project, when in fact NextEra was building and owning all of the interconnection.

Please send a letter to Energy Division Director Edward Randolph explaining the situation and why the NOC request was in fact unnecessary. That documentation should take care of the matter.

Happy to discuss further.

Best

Mary Jo
