Subject: Meeting with PG&E and High Speed Rail

[Redacted]

I'm writing to suggest a meeting between CPUC and High Speed Rail and PG&E on December 16th. We'd like to convene the interconnection, transmission planning, and environmental planning personnel from PG&E to discuss PG&E's upcoming need for interconnections to PG&E's system. It appears to me at this point that PG&E may need to file an application to permit the PG&E facilities/upgrades required to support the High Speed Rail interconnections. Seeking clarity for all parties about the tasks that lie ahead – and who will do them, I'd like to seek your help to set up this meeting. I tentatively talked to HSR about December 16th for a large, multi-hour multiparty meeting. We would probably do this meeting at PG&E or at the CPUC.

Does that date look possible? If so, we can discuss an agenda in more detail early next week.

Thanks,
Molly
